

Benchmark Analytics[®]

Accessibility Design Enhancements and New Features to Make it Easier to Complete Reports

FEATURE UPDATE

What's New

Website Accessibility Enhancements

Sitewide changes to colors, font sizes, and more will make it easier to use BMS with low visibility.

New Feature - Select Report Reviewer by ID

You can now search for report reviewers using their employee or Benchmark ID instead of an exact name search.

Cleaner New Reports Selection

The Submit On Behalf Of option in the New Reports selection has been removed due to inactivity, making the creation of new reports more straightforward.

Release Date: May 13, 2024

WEBSITE ACCESSIBILITY ENHANCEMENTS

As advised in the April 25, 2024 release, Benchmark is undertaking changes to the UI to ensure enhanced accessibility across Reports, Profile, Analytics, and Administrative functions.

This redesign increased contrast, clarity, and size of text. It also addressed key page elements to ensure that assistive devices such as keyboard navigation and screen readers are maximized. The accessibility standards are set by Web Content and Accessibility Guidelines (WCAG) 2.1 AA standards.
